의미 = use writing as a means of reflecting on oneself

Coming of age in the 18th and 19th centuries, the personal diary became a centerpiece in the construction of a modern subjectivity, at the heart of which is the application of reason and critique to the understanding of world and self, which allowed the creation of a new kind of knowledge. Diaries were central media **through which** enlightened and free subjects could be constructed. They provided a space where one could write daily about her whereabouts, feelings, and thoughts. Over time and with rereading, disparate entries, events, and happenstances could be rendered into insights and narratives about the self, and allowed for the formation of subjectivity. It is in that context that the idea of "the self [as] both made and explored with words" emerges. Diaries were personal and private; one would write for oneself, or, in Habermas's formulation, one would make oneself public to oneself. By making the self public in a private sphere, the self also became an object for self-inspection and self-critique.

*disparate 이질적인 **render 만들다

18세기와 19세기에 발달한 상태가 된 개인 일기는 근대적 주체성을 구축하는 데 중심물이 되었는데, 그것의 중심에는 세계와 자아에 대한 이해에 이성과 비판의 적용이 있었고, 이는 새로운 종류의 지식을 창조할 수 있게 해주었다. 일기는 그것을 통해 계몽되고 자유로운 주체가 구성될 수 있는 중심 매체였다. 그것은 개인이 자신의 행방, 감정, 생각에 대해 매일 쓸 수 있는 공간을 제공했다. 시간이 지남에 따라 그리고 다시 읽음으로써, 이질적인 항목, 사건 및 우연이 자신에 관한 통찰력과 이야기로 만들어질 수 있었으며, 주체성의 형성을 가능하게 만들었다. '말로 만들어지고 또한 탐구되는 (것으로의) 자아'라는 개념이 나타나는 것은 바로 그러한 맥락에서다. 일기는 개인적이고 사적인 것이었다. 사람들은 자신을 위해 쓰곤 했는데, Habermas의 명확한 표현을 빌리면, 자신을 자신에게 공개적으로 만들곤 했다. 자아를 사적 영역에서 공적으로 만들면서, 자아는 또한 자기 점검과 자기 비판의 대상이 되었다.

01 의미 = 진화는 현대의 비만을 해결하기에는 너무 느리다

In the past there was little genetic pressure to *stop* people *from* becoming obese. Genetic mutations that drove people to consume fewer calories were ***much*** less likely to be passed on, because in an environment where food was scarcer and its hunting or gathering required *considerable* energy outlay, an individual with that mutation would probably die before they had a chance to reproduce. s **Mutations** {that in our environment of abundant food now drive us towards obesity,} on the other hand, v **were incorporated** into the *population*. Things are of course very different now but the problem is that evolutionary timescales are long. ***It***'s only in the last century or so, approximately 0.00004 per cent of mammalian evolutionary time, ***that*** we managed to tweak our environment to such a degree that we can pretty much eat whatever we want, whenever we want it. Evolution has another couple of thousand years to go before it can *catch up with* the current reality of online food shopping and delivery.

* mutation: 돌연변이 * outlay: (에너지 등의) 소비 * reproduce: 번식하다 * tweak: 변경하다, 수정하다

과거에는 사람들이 비만이 되는 것을 막는 유전적 압력이 거의 없었습니다. 사람들이 더 적은 칼로리를 섭취하도록 유도하는 유전적 돌연변이는 유전될 가능성이 훨씬 적었습니다. 왜냐하면 음식이 더 부족하고 사냥이나 채집에 상당한 에너지 지출이 필요한 환경에서 그러한 돌연변이를 가진 개인은 아마도 그들이 아이를 낳을 기회를 갖기 전에 죽을 것이기 때문입니다. 반면에 풍부한 음식이 있는 환경에서 우리를 비만으로 몰아가는 돌연변이는 인구에 통합되었습니다. 물론 지금은 상황이 매우 다르지만 문제는 진화의 시간 척도가 길다는 것입니다. 포유동물 진화 시간의 약 0.00004퍼센트인 지난 세기에야 우리는 원할 때마다 원하는 것은 무엇이든 거의 먹을 수 있을 정도로 환경을 조정할 수 있었습니다. 진화는 온라인 음식 쇼핑 및 배달의 현재 현실을 따라잡기까지 2,000년이 더 가야 합니다.

숙어 정리 - A가 B를 못하게 하다; 직역 - A를 막다, B로부터 *주의: forbid A to 원형

02 의미 =지지 하지 않는 부모가 있다는 것

The idea of family support, suggested as one of the preconditions of any child's success, is *far from* being faultless. Thus, for example, the well-known musical psychologist Jane Davidson and her colleagues state that all the parents of children who later become *successful* musicians were, in fact, their charges' great friends and allies from earliest childhood. If the great jazz musician Sidney Bechet ***were to hear*** of such a conclusion he ***would be surprised*** indeed. His altogether *respectable* parents, who dreamed of something rather more substantial and reliable than a career in music for their son, actually hid his clarinet from him. Robert Schumann's mother, the widow of a publisher and literary translator, reconciled herself only with difficulty to her son's choice of music as a profession; while Christoph W. Gluck, the great reformer of opera, / ***was forced*** / ***to roam*** about Italy and Bohemia after being expelled from home by his father. Even some of the great musical geniuses, it is clear, were given 성탄절에 산타가 주는 (별난)선물 **switches and coal** by an unkind Fate instead of the presents other youngsters received. The 'universal support' given by parents to beginning musicians turns out, upon closer examination, to be a myth.

* charge: 보살펴야 하는 사람 ** reconcile oneself to: ~을 감수하다 *** switch: 회초리

모든 자녀의 성공을 위한 전제 조건 중 하나로 제안되는 가족 지원에 대한 생각은 흠잡을 데 없는 것은 아닙니다. 예를 들어, 유명한 음악 심리학자 제인 데이비슨과 그녀의 동료들은 나중에 성공적인 음악가가 된 아이들의 모든 부모는 사실 어린 시절부터 부모의 훌륭한 친구이자 협력자였다고 말합니다. 위대한 재즈 음악가 Sidney Bechet이 그러한 결론을 듣는다면 그는 참으로 놀랄 것입니다. 아들을 위해 음악 경력보다 훨씬 더 실질적이고 신뢰할 수 있는 것을 꿈꾸던 그의 존경할만한 부모는 실제로 그의 클라리넷을 숨겼습니다. 출판인이자 문학 번역가의 미망인인 로베르트 슈만의 어머니는 아들이 음악을 직업으로 선택하는 것을 어렵게 받아들였습니다. 오페라의 위대한 개혁가인 크리스토프 W. 글룩은 아버지에 의해 집에서 쫓겨난 후 이탈리아와 보헤미아를 돌아다녀야 했습니다. 몇몇 위대한 음악적 천재들조차도 다른 젊은이들이 받은 선물 대신에 불친절한 운명에 의해 스위치와 석탄을 받았음이 분명합니다. 초보 음악가에게 부모가 제공하는 '보편적 지원'은 자세히 살펴보면 근거 없는 믿음임이 드러납니다.

숙어 정리 - Far from ~ 결코 ~가 아닌, ~하기는커녕 = instead of * 직역은 '~에서 너무 먼'이란 뜻이다.

Far from the truth, it's a myth. 사실과 달리, 미신이다. (사실과는 거리가 먼) Spider-Man is far from home. 집에서 (너무) 멀리 떨어져 있다.

03 의미 = 이야기의 거짓됨을 더 적게 인지했다

A key feature particular to stories is that they have the ability to transport the reader. ***While*** experiencing stories, one can feel emotionally involved and as if being swept away as a participant. There is some evidence that being transported into a story requires a suspension of disbelief; enjoying *Jurassic Park* or a Harry Potter tale may involve putting aside what one knows about the world that contradicts the story. A story that suggests an unexpected outcome ("George Washington declined the nomination to become the first president of the United States") *results in* readers being slower to verify well-known facts ("George Washington was elected first president of the United States"). This suspension of disbelief / may make(5V) / one(O) / less likely(OC) to spot problems in a narrative, as illustrated by a study in which participants read a story and circled any "false notes" or parts that did not make sense. Green and Brock *refer to* this method *as* "Pinocchio circling":just as the puppet's nose signaled when he told a falsehood, authors also leave clues when they are being untruthful. But readers who were more transported by the story spotted fewer "Pinocchios."

* verify: 확인하다

스토리 고유의 핵심 기능은 스토리가 독자를 이동시키는 능력이 있다는 것입니다. 이야기를 경험하는 동안 참여자로 휩쓸려가는 듯한 감정적 몰입을 느낄 수 있다. 이야기 속으로 옮겨가려면 불신을 멈춰야 한다는 몇 가지 증거가 있습니다. 쥬라기 공원이나 해리 포터 이야기를 즐기는 것은 이야기와 모순되는 세상에 대해 알고 있는 것을 제쳐두는 것을 포함할 수 있습니다. 예상치 못한 결과를 암시하는 이야기("조지 워싱턴은 미국의 초대 대통령이 되기 위한 지명을 거부했습니다")는 독자들이 잘 알려진 사실을 확인하는 데 더디게 만듭니다("조지 워싱턴은 미국의 초대 대통령으로 선출되었습니다"). 이러한 불신의 정지는 참가자가 이야기를 읽고 "거짓 메모"나 이해가 되지 않는 부분에 동그라미를 치는 연구에서 설명된 것처럼 내러티브에서 문제를 발견할 가능성을 낮출 수 있습니다. Green과 Brock은 이 방법을 "Pinocchio circling"이라고 부릅니다. 꼭두각시가 거짓을 말했을 때 코가 신호를 보냈듯이 저자도 거짓일 때 단서를 남깁니다. 그러나 이야기에 더 감동한 독자들은 "피노키오"를 더 적게 발견했습니다.

어법 정리 - (전치사 + 명사) / { 접속사 S + V }

~ 동안: 전치사 during 접속사 while ***while (S + beV 생략) ~ing/ p.p : '주어+be 동사' 생략가능**

숙어 정리 - 원인과 결과 구분 - 전치사나 접속사나 뒷 부분과 묶어 해석 하면 쉽다.

result from ~로부터 생기다 [원인] result in ~가 되다 [결과] The accident resulted (from the driver.)

That is because ~ 때문이다 [원인] That is why ~한 이유이다 [결과] That is [why the driver is in hospital.]

어법 정리 - refer to A as B; A를 B라고 여기다.

People refer to the team as Avengers. [능동] = The team **is referred to as** Avengers. [수동] refer to만 수동으로 바꾸고, as~는 그대로 둔다.

04 의미 = 광고를 포함한 현재의 마케팅 전략은 큰 효과가 없다

Marketing is based on notions that are 20 years out of date. The notion that if you put enough messages out there some of them will be heard. The notion that 'building the brand' is money well spent. The notion that people believe what they see and read. Recent initiatives to take advantage of Web 2.0 technologies are merely reactions that apply old techniques to new media. Marketing / needs / to rethink the messages (rethink의 ①번 목적어) it is communicating, to whom it's communicated (rethink의 ②번 목적어) and the methods (rethink의 ③번 목적어) being used. Many companies are disappointed at the lack of tangible return on their multi-million pounds marketing activities. Advertising remains the largest budget item on most firms' marketing plans. Advertising may be a fixture in a company's annual spend, but management boards are increasingly questioning why this is. The most recent Brandchannel survey illustrates this point well. Four of the world's five largest brands have never conducted any advertising, and the same is true for seven out of the 10 fastest-growing brands. There is no proven causal relationship between advertising and financial performance. And advertising is just the tip of the melting marketing iceberg.

*initiative: 시도 tangible return: 유형(실질적, 만질 수 있는) 수익

마케팅은 20년이나 지난 개념을 기반으로 합니다. 거기에 충분한 메시지를 넣으면 그 중 일부가 들릴 것이라는 개념. '브랜드 구축'이라는 개념은 돈을 잘 쓰는 것입니다. 사람들이 보고 읽는 것을 믿는다는 개념. Web 2.0 기술을 활용하려는 최근의 시도는 오래된 기술을 새로운 미디어에 적용하는 반응에 불과합니다. 마케팅은 전달하는 메시지, 전달 대상 및 사용되는 방법을 재고해야 합니다. 많은 기업들이 수백만 파운드에 달하는 마케팅 활동에 대한 유형 수익의 부족에 실망하고 있습니다. 광고는 대부분 기업의 마케팅 계획에서 가장 큰 예산 항목으로 남아 있습니다. 광고는 회사의 연간 지출의 고정물일 수 있지만 경영진은 점점 더 그 이유에 대해 의문을 제기하고 있습니다. 가장 최근의 Brandchannel 설문조사는 이 점을 잘 보여줍니다. 세계 5대 브랜드 중 4개는 광고를 한 번도 한 적이 없으며, 가장 빠르게 성장하는 10개 브랜드 중 7개도 마찬가지입니다. 광고와 재무 실적 간에 입증된 인과 관계는 없습니다. 그리고 광고는 녹는 마케팅 빙산의 일각에 불과합니다.

Coming of age in the 18th and 19th centuries, the personal diary became a centerpiece in the construction of a modern subjectivity, at the heart of which is the application of reason and critique to the understanding of world and self, which allowed the creation of a new kind of knowledge.

(A) Over time and with rereading, disparate entries, events, and happenstances could be rendered into insights and narratives about the self, and allowed for the formation of subjectivity. It is in that context that the idea of "the self [as] both made and explored with words" emerges.

(B) Diaries were personal and private; one would write for oneself, or, in Habermas's formulation, one would make oneself public to oneself. By making the self public in a private sphere, the self also became an object for self-inspection and self-critique.

(C) Diaries were central media through which enlightened and free subjects could be constructed. They provided a space where one could write daily about her whereabouts, feelings, and thoughts.

In the past there was little genetic pressure to stop people from becoming obese.

(A) It's only in the last century or so, approximately 0.00004 per cent of mammalian evolutionary time, that we managed to tweak our environment to such a degree that we can pretty much eat whatever we want, whenever we want it. Evolution has another couple of thousand years to go before it can catch up with the current reality of online food shopping and delivery.

(B) Mutations that in our environment of abundant food now drive us towards obesity, on the other hand, were incorporated into the population. Things are of course very different now but the problem is that evolutionary timescales are long.

(C) Genetic mutations that drove people to consume fewer calories were much less likely to be passed on, because in an environment where food was scarcer and its hunting or gathering required considerable energy outlay, an individual with that mutation would probably die before they had a chance to reproduce.

The idea of family support, suggested as one of the preconditions of any child's success, is far from being faultless.

(A) Robert Schumann's mother, the widow of a publisher and literary translator, reconciled herself only with difficulty to her son's choice of music as a profession; while Christoph W. Gluck, the great reformer of opera, was forced to roam about Italy and Bohemia after being expelled from home by his father. Even some of the great musical geniuses, it is clear, were given switches and coal by an unkind Fate instead of the presents other youngsters (C) **refused/ received**. The 'universal support' given by parents to beginning musicians turns out, upon closer examination, to be a myth.

A key feature particular to stories is that they have the ability to transport the reader. While experiencing stories, one can feel emotionally involved and as if being swept away as a participant. There is some evidence that being transported into a story requires a suspension of _____; enjoying Jurassic Park or a Harry Potter tale may involve putting aside what one knows about the world that (A) **supports/ contradicts** the story. A story that suggests an unexpected outcome ("George Washington declined the nomination to become the first president of the United States") results in readers being slower to verify well-known facts ("George Washington was elected first president of the United States"). This suspension of disbelief may make one less likely to spot problems in a narrative, as (B) **erased/ illustrated** by a study in which participants read a story and circled any "false notes" or parts that did not make sense. Green and Brock refer to this method as "Pinocchio circling":just as the puppet's nose signaled when he told a falsehood, authors also leave clues when they are being (C) **truthful/ untruthful**. But readers who were more transported by the story spotted fewer "Pinocchios."

Marketing is based on notions that are 20 years out of date. The notion that if you put enough messages out there some of them will be heard. The notion that 'building the brand' is money well spent. The notion that people (A) **believe/ relieve** what they see and read. Recent initiatives to take advantage of Web 2.0 technologies are merely reactions that apply old techniques to new media. Marketing needs to rethink the messages it is communicating, to whom it's communicated and the methods being used. Many companies are (B) **appointed/ disappointed** at the lack of tangible return on their multi-million pounds marketing activities. Advertising remains the largest budget item on most firms' marketing plans. Advertising may be a fixture in a company's annual spend, but management boards are increasingly questioning why this is. The most (C) **decent/ recent** Brandchannel survey illustrates this point well. Four of the world's five largest brands have never conducted any advertising, and the same is true for seven out of the 10 fastest-growing brands. There is no proven causal relationship between advertising and financial performance. And advertising is just the tip of the melting marketing iceberg.
