문법

1. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?[1)]

Random sampling doesn't mean just ① **choosing** the people to participate in the study haphazardly — there's a difference between the meaning of the word 'random' in everyday use and its meaning in statistics and research methods. A random sample is a sample ② **in which** every member of the population has an equally likely chance of ③ **being selected** for the study — and that isn't as easy as it sounds. Most sampling methods will unconsciously favour some people, and not others. Picking names at random out of a telephone directory means ④ **that** people who are ex-directory or who don't use landlines are not going to ⑤ **be included**. In a psychological study, ⑥ **which** could introduce a bias, because those people may be different from others in some important way — for example, by being younger, or more suspicious of strangers.

2. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?[2)]

Spatial position can be indicative of social status. Historical analyses of hundreds of paintings indicate that when two people appear in the same picture the more dominant, powerful person is usually ① **faced** to the right. For example, relative to men, women are more often displayed ② **showing** the left cheek, consistent with gender roles that consider them as less agentic. In other words, traditionally weak and submissive characters ③ **have been assigned** to their respective place by where they ④ **are situated** in space. From the 15th century to the 20th century, however, this gender bias in paintings has become less ⑤ **pronounced**, therefore ⑥ **paralleling** increasingly modern views of women's role in society.

3. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?[3)]

Within travel destinations, it is not uncommon to see higher sticker prices in areas most ① **frequented** by tourists; prices are much lower elsewhere ② **where** locals shop. A few smart tourists soon learn ③ **to get** away from these "tourist traps" to find better deals where there ④ **are** not as many tourists. Most tourists will not, because it doesn't pay to spend their scarce vacation time ⑤ **attempting to find** cheaper restaurants, souvenirs, and so on outside the tourist areas. If the time ⑥ **is spent** in searching and shopping for the best deals ⑦ **is included** as part of the prices of the purchases, "prices" are actually lower in the tourist areas for most tourists. In sum, locational price differences are generally not ⑧ **considered** price discrimination.

4. 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은?[4)]

The desire for esteem can ① **be used** effectively by society to influence how people act. Systems of prestige ② **are found** in all cultures, and in general prestige is used to recognize and ③ **reward** people who do what is most useful to the culture. People will labor for years, even decades, in the hope of securing the esteem of their fellows and the accompanying right to think well of ④ **them**. By linking prestige and esteem to particular activities or accomplishments, a culture can direct many people ⑤ **to devote** their energies in those directions. It is no accident that in small societies ⑥ **struggling** for survival, prestige comes with bringing in large amounts of protein (hunting) or ⑦ **defeating** the most dangerous enemies (fighting). By the same token, the prestige of motherhood probably rises and falls with the society's need to increase population, and the prestige of entertainers rises and falls with how much time and money ⑧ **the population can** devote to leisure activities.

5. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[5)]

Random sampling doesn't mean just choosing the people to participate in the study ① **haphazardly** — there's a difference between the meaning of the word 'random' in everyday use and its meaning in statistics and research methods. A random sample is a sample in which every member of the population has an ② **equally** likely chance of being selected for the study — and that isn't as ③ **easy** as it sounds. Most sampling methods will unconsciously ④ **favour** some people, and not others. Picking names at random out of a telephone directory means that people who are ex-directory or who don't use landlines are not going to be ⑤ **included**. In a psychological study, that could introduce a ⑥ **bias**, because those people may be ⑦ **similar to** others in some important way — for example, by being younger, or ⑧ **more suspicious** of strangers.

6. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[6)]

Spatial position can be indicative of ① **social status**. Historical analyses of hundreds of paintings indicate that when two people appear in the same picture the more dominant, powerful person is usually facing to the ② **right**. For example, relative to men, women are more often displayed showing the left cheek, ③ **consistent** with gender roles that consider them as ④ **less agentic**. In other words, traditionally weak and submissive characters have been assigned to their ⑤ **respectable** place by where they are situated in ⑥ **space**. From the 15th century to the 20th century, however, this gender bias in paintings has become ⑦ **less pronounced**, therefore paralleling ⑧ **increasingly** modern views of women's role in society.

7. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[7)]

Within travel destinations, it is not uncommon to see ① **higher** sticker prices in areas most frequented by tourists; prices are much lower elsewhere where locals shop. A few smart tourists soon learn to ② **get away from** these "tourist traps" to find better deals where there are not as many tourists. Most tourists will not, because it doesn't pay to spend their ③ **abundant** vacation time attempting to find cheaper restaurants, souvenirs, and so on outside the tourist areas. If the time spent in searching and shopping for the best deals is ④ **included** as part of the prices of the purchases, "prices" are actually lower in the tourist areas for most tourists. In sum, locational price differences are generally not considered ⑤ **price discrimination**.

8. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[8)]

The desire for esteem can be used effectively by society to influence how people ① **act**. Systems of prestige are found in all cultures, and in general prestige is used to recognize and reward people who do what is most ② **useful** to the culture. People will labor for years, even decades, in the hope of ③ **securing** the esteem of their fellows and the accompanying right to think well of themselves. By linking prestige and esteem to particular activities or accomplishments, a culture can direct many people to ④ **devote** their energies in those directions. It is no accident that in small societies struggling for ⑤ **survival**, prestige comes with bringing in large amounts of protein (hunting) or ⑥ **defeating** the most dangerous enemies (fighting). By the same token, the prestige of ⑦ **motherhood** probably rises and falls with the society's need to increase population, and the prestige of ⑧ **fatherhood** rises and falls with how much time and money the population can devote to leisure activities.

빈칸 추론

9. 다음 글의 빈칸에 들어갈 말로 가장 적절한 것은?[9]

Random sampling doesn't mean just _____ — there's a difference between the meaning of the word 'random' in everyday use and its meaning in statistics and research methods. A random sample is a sample in which every member of the population has an equally likely chance of being selected for the study — and that isn't as easy as it sounds. Most sampling methods will unconsciously favour some people, and not others. Picking names at random out of a telephone directory means that people who are ex-directory or who don't use landlines are not going to be included. In a psychological study, that could introduce a bias, because those people may be different from others in some important way — for example, by being younger, or more suspicious of strangers.

① ending up acquiring the alarm calls of the new group
② making constant attempts to bring their blood kin along
③ choosing the people to participate in the study haphazardly
④ emitting alarm calls less frequently than do native females
⑤ adopting a more elaborate defense mechanism than alarm calls

10. 다음 글의 빈칸에 들어갈 말로 가장 적절한 것은?[10]

Spatial position can be indicative of social status. Historical analyses of hundreds of paintings indicate that when two people appear in the same picture the more dominant, powerful person is usually facing to the right. For example, relative to men, women are more often displayed showing the left cheek, consistent with gender roles that consider them as less agentic. In other words, traditionally weak and submissive characters have been assigned to their respective place by where they are situated in space. From the 15th century to the 20th century, however, this gender bias in paintings has become less pronounced, therefore _____.

① reflecting upon their mistakes and try to learn from them
② portraying vague past statements as confident predictions
③ believing that all events are the result of random actions
④ basing their future predictions on the outcomes of past events
⑤ paralleling increasingly modern views of women's role in society

11. 다음 글의 빈칸에 들어갈 말로 가장 적절한 것은?[11]

The desire for esteem can be used effectively by society to influence how people act. Systems of prestige are found in all cultures, and in general prestige is used to recognize and reward people who do what is most useful to the culture. People will labor for years, even decades, in the hope of securing the esteem of their fellows and the accompanying right to think well of themselves. By _____, a culture can direct many people to devote their energies in those directions. It is no accident that in small societies struggling for survival, prestige comes with bringing in large amounts of protein (hunting) or defeating the most dangerous enemies (fighting). By the same token, the prestige of motherhood probably rises and falls with the society's need to increase population, and the prestige of entertainers rises and falls with how much time and money the population can devote to leisure activities.

① prompting small communities to adopt harsh social norms
② resulting from passion and enthusiasm rather than inference
③ occurring in large communities with strict hierarchical structures
④ requiring a large and loosely structured, competitive community
⑤ linking prestige and esteem to particular activities or accomplishments

Random sampling doesn't mean just choosing the people to participate in the study haphazardly — there's a difference between the meaning of the word 'random' in everyday use and its meaning in statistics and research methods. A random sample is a sample **[which / in which]** every member of the population has an equally likely chance of **[selecting / being selected]** for the study — and that isn't as **[easy / easily]** as it sounds. Most sampling methods will unconsciously favour some people, and not **[other / others]**. **[Pick / Picking]** names at random out of a telephone directory means **[that / what]** people who are ex-directory or who don't use landlines are not going to **[include / be included]**. In a psychological study, **[that / what]** could introduce a bias, because those people may be different from others in some important way — for example, by being younger, or more suspicious of strangers.

38. 다음 글의 네모 안에서 문법상 맞는 말로 가장 적절한 것은?[서술형]38)

Spatial position can be indicative of social status. Historical analyses of hundreds of paintings indicate **[that / what]** when two people **[appear / are appeared]** in the same picture the more dominant, powerful person is usually **[facing / faced]** to the right. For example, relative to men, women are more often **[displaying / displayed]** **[showing / showed]** the left cheek, **[consistent / consistently]** with gender roles **[that / what]** consider **[it / them]** as less **[agentic / agentically]**. In other words, traditionally weak and submissive characters **[have assigned / have been assigned]** to their respective place by where they **[situate / are situated]** in space. From the 15th century to the 20th century, however, this gender bias in paintings **[have / has]** become less **[pronouncing / pronounced]**, therefore **[paralleling / paralleled]** increasingly modern views of women's role in society.

39. 다음 글의 네모 안에서 문법상 맞는 말로 가장 적절한 것은?[서술형]39)

Within travel destinations, it is not uncommon to see higher sticker prices in areas most **[frequenting / frequented]** by tourists; prices are much lower elsewhere **[which / where]** locals shop. A few smart tourists soon learn **[to get / getting]** away from these "tourist traps" to find better deals where there **[is / are]** not as many tourists. Most tourists will not, because it doesn't pay to spend their scarce vacation time **[attempting / attempted]** **[to find / finding]** cheaper restaurants, souvenirs, and so on outside the tourist areas. If the time **[spent / is spent]** in searching and shopping for the best deals **[includes / is included]** as part of the prices of the purchases, "prices" are actually lower in the tourist areas for most tourists. In sum, locational price differences are generally not **[considering / considered]** price discrimination.

40. 다음 글의 네모 안에서 문법상 맞는 말로 가장 적절한 것은?[서술형]40)

The desire for esteem can **[use / be used]** effectively by society to **[influence / influencing]** **[how / what]** people act. Systems of prestige **[find / are found]** in all cultures, and in general prestige **[uses / is used]** to recognize and **[reward / rewards]** people who do **[that / what]** is most useful to the culture. People will labor for years, even decades, in the hope of securing the esteem of their fellows and the **[accompanying / accompanied]** right to think well of **[them / themselves]**. By linking prestige and esteem to particular activities or accomplishments, a culture can direct many people **[to devote / devoted]** their energies in those directions. It is no accident **[that / what]** in small societies **[struggling / struggled]** for survival, prestige comes with **[bringing / being brought]** in large amounts of protein (hunting) or **[defeats / defeating]** the most dangerous enemies (fighting). By the same token, the prestige of motherhood probably rises and falls with the society's need to increase population, and the prestige of entertainers rises and falls with how much time and money **[the population can / can the population]** devote to leisure activities.

124. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[124)]

Random sampling doesn't mean just choosing the people to participate in the study ① **haphazardly** — there's a difference between the meaning of the word 'random' in everyday use and its meaning in statistics and research methods. A random sample is a sample in which every member of the population has an ② **unequally** likely chance of being selected for the study — and that isn't as ③ **straightforward** as it sounds. Most sampling methods will unconsciously ④ **prefer** some people, and not others. Picking names at random out of a telephone directory means that people who are ex-directory or who don't use landlines are not going to be ⑤ **incorporated**. In a psychological study, that could introduce a ⑥ **bias**, because those people may be ⑦ **different from** others in some important way — for example, by being younger, or ⑧ **more distrustful** of strangers.

125. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[125)]

Spatial position can be indicative of ① **social statue**. Historical analyses of hundreds of paintings indicate that when two people appear in the same picture the more dominant, powerful person is usually facing to the ② **right**. For example, relative to men, women are more often displayed showing the left cheek, ③ **coherent** with gender roles that consider them as ④ **less agentic**. In other words, traditionally weak and submissive characters have been assigned to their ⑤ **individual** place by where they are situated in ⑥ **space**. From the 15th century to the 20th century, however, this gender bias in paintings has become ⑦ **less obvious**, therefore paralleling ⑧ **increasingly** modern views of women's role in society.

126. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[126)]

Within travel destinations, it is not uncommon to see ① **higher** sticker prices in areas most frequented by tourists; prices are much lower elsewhere where locals shop. A few smart tourists soon learn to ② **get away from** these "tourist traps" to find better deals where there are not as many tourists. Most tourists will not, because it doesn't pay to spend their ③ **insufficient** vacation time attempting to find cheaper restaurants, souvenirs, and so on outside the tourist areas. If the time spent in searching and shopping for the best deals is ④ **contained** as part of the prices of the purchases, "prices" are actually lower in the tourist areas for most tourists. In sum, locational price differences are generally not considered ⑤ **impartial price tag**.

127. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?[127)]

The desire for esteem can be used effectively by society to influence how people ① **act**. Systems of prestige are found in all cultures, and in general prestige is used to recognize and reward people who do what is most ② **useful** to the culture. People will labor for years, even decades, in the hope of ③ **acquiring** the esteem of their fellows and the accompanying right to think well of themselves. By linking prestige and esteem to particular activities or accomplishments, a culture can direct many people to ④ **dedicate** their energies in those directions. It is no accident that in small societies struggling for ⑤ **survival**, prestige comes with bringing in large amounts of protein (hunting) or ⑥ **defeating** the most dangerous enemies (fighting). By the same token, the prestige of ⑦ **motherhood** probably rises and falls with the society's need to increase population, and the prestige of ⑧ **trainers** rises and falls with how much time and money the population can devote to leisure activities.

128. 다음 글의 밑줄 친 부분 중 영영풀이가 맞지 않는 것은?[128]

① **Spatial** position can be indicative of social ② **status**. Historical analyses of hundreds of paintings indicate that when two people appear in the same picture the more dominant, powerful person is usually facing to the right. For example, relative to men, women are more often displayed showing the left cheek, consistent with gender roles that consider them as less ③ **agentic**. In other words, traditionally weak and ④ **submissive** characters have been assigned to their respective place by where they are situated in space. From the 15th century to the 20th century, however, this gender bias in paintings has become less ⑤ **pronounced**, therefore paralleling increasingly modern views of women's role in society.

① relating to space and the relationship of objects within it
② the position or rank of someone or something when compared to others in a society, organization, group
③ That behaves like an agent, assuming no responsibility for actions or their consequences, only following the orders of someone in authority
④ more important, powerful, or successful than most or all others
⑤ very noticeable

129. 다음 글의 밑줄 친 부분 중 영영풀이가 맞지 않는 것은?[129]

The desire for ① **esteem** can be used effectively by society to influence how people act. Systems of ② **prestige** are found in all cultures, and in general prestige is used to recognize and reward people who do what is most useful to the culture. People will labor for years, even decades, in the hope of ③ **securing** the esteem of their fellows and the accompanying right to think well of themselves. By linking prestige and esteem to particular activities or accomplishments, a culture can direct many people to ④ **devote** their energies in those directions. It is no accident that in small societies struggling for survival, prestige comes with bringing in large amounts of protein (hunting) or defeating the most dangerous enemies (fighting). By the same token, the prestige of motherhood probably rises and falls with the society's need to increase population, and the prestige of entertainers rises and falls with how much time and money the population can devote to ⑤ **leisure** activities.

① used to say how much someone or something is admired and respected
② the respect and admiration that someone or something gets for being successful or important
③ protected from danger or harm
④ to decide that (something) will be used for (a special purpose); to use (time, money, energy, attention, etc.) for (something)
⑤ enjoyable activities that you do when you are not working

정답

1) ⑥ that
2) ① facing
3) ⑥ spent
